Celebrating our 5th year

# Message from our Founder

## Hello KWP Supporters

Kids with PossAbilities is celebrating 5 years this year! I am so proud of what we have been able to accomplish over these past 5 years with your support and the support of our amazing board members who volunteer their time and talents to this organization. I would like to thank all of you who attended or donated to our Anything is Possible fundraiser last year at Resident Culture Brewery.

Thanks to your support, we were able to have our most successful fundraiser yet raising over \$50,000!!! The money raised will allow us to continue our mission of providing funding for therapy, assistive technology and educational scholarships for children with developmental delays.

This year, due to the coronavirus, we will not be able to have an in-person fundraiser. Instead, we have already hosted 2 Virtual Fundraisers this year and we are planning one final Virtual Fundraiser for the weekend of October 23rd -25th. Please follow us on Facebook and Instagram for more information on these events. If you would like to help, we are accepting sponsorships and collecting items to be used for a virtual silent auction. Children with developmental delays have been disproportionately affected by this pandemic due to missing therapies, inability to learn virtually and changes in routine. These families need our help now more than ever. Please contact us at [info@kidswithpossabilities.org](mailto:info@kidswithpossabilities.org) if you would like to contribute or would like more information on KWP.

# Endless PossAbilities

"Thanks is not enough to say for receiving your grant this year. I would like to say a heartfelt thank you for your help. The grant we received last year as well as this year is very helpful for my kid to undergo therapies. I keep encouraging my friends and colleagues to donate. This is a picture of the first time my daughter was able to sit up by herself."

"We have used the scholarship money directly for speech and feeding therapy. Miles has severe apraxia and some unknown underling genetic issue. We truly thank the donors for the help financially. It is making a difference in his and our lives. Thanks again,"
